Gold demand expected to pickup in second half of 2016

New Delhi, Aug 17 (UNI) Global economic crisis will continue to drive the demand for gold and silver worldwide.

Bullion experts at the India International Gold Convention (IIGC) organised by Foretell Business Solutions Ltd unanimously expressed that demand in India will pick up in the second half of calendar 2016 after a dismal first half.

It has been estimated that ultra-low real interest rates in the US and elsewhere will continue to drive the demand for both the metals globally. Gold is expected to remain above 1270 dollar per ounce, while silver will continue to remain above 17 dollar per ounce in London market.
